**RE: CARROLTON-AUDUBON RENAISSANCE PLAN**

The Renaissance Planning Process, which began in the Lower Garden District in the late 1990's, has proven to be a successful model for neighborhood planning in our community. The hard work of the many citizens and organizations in the Carrollton-Audubon areas and their diligent efforts to work with the City Planning Commission in the initiation of a Renaissance Planning Process, including development of a Renaissance Plan/Master Plan for the neighborhoods in the areas, is a great project.

I look forward to working with these groups and participating in the development of this Plan, including a thorough citizen outreach process. The collaborative commitment to citizen participation will make this Plan an effective tool for the future of these important neighborhoods and serve as a model for other areas of the City.

Please include me and my staff in all future meetings and events. Be assured that my office is available to assist in the planning process and implantation of future strategies for the Carrollton-Audubon Renaissance Planning process.

Sincerely,

A handwritten signature in cursive script that reads "Cynthia Hedge Morrell".
